Mr. Fuller went over the variance application stating that it is 4 existing lots on Peenpack Trail that had Manufactured Homes on them that Mr. McCune had demoed. He continued that the applicant submitted an application to the Planning Board to reconfigure the lot lines from 4 to 3 and they sent him to the Zoning Board. The parcels meet all zoning requirements except lot width, the minimum is 200 feet. Mr. Fuller further stated that with the way the lots are currently configured they could be built on. John Fuller continued that usually during the Planning Board process of a subdivision the Highway Department asks for a 25ft easement and how it is configured right now a variance for lot area would be required also, 40,000sqft is the minimum and if required each lot will be less than that. Town Attorney acknowledged that it could be made as a conditional Area Variance if the Town requested the 25ft road dedication during the subdivision, if not than the variance will lapse. Jane Lord stated that this will be an improvement with what was there. Lee Cornell stated he was worried about the run off from the mountain. John Fuller stated during the Planning Board and Building Department process that will be taken care of and he added that the driveways will probably require culverts.

No Public Comment.
